WD Hitch

DSW-1WDHITCH for SwayPro™, TrackPro™, & 2-Point™

WD Hitches

SwayPro & TrackPro

SwayPro Shows

Smooth, Stable Ride
 Weight is distributed evenly, which adds to increased trailer balance and "smoothness".

Integrated Positive Camber
 Designed with integrated positive camber, which allows the loaded spring bar pushing the trailer to center.

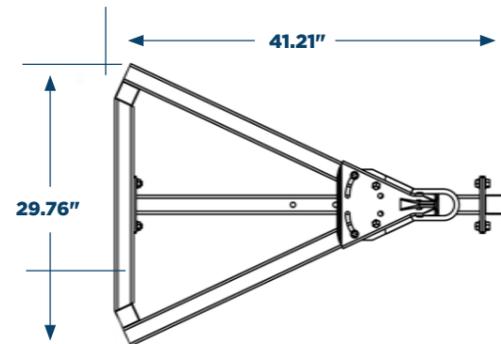

Spring Steel Bars
 Flat and back supporting the suspension of the low rolling and trailer. Can be extended out with changing tongue weights.

Pinacle Of Protection
 Includes leading premium featured powder coat over a steel from our TFR paint facility, which is a great feature.

SwayPro Uses Swiveling Latches
 Wrap around latch design allows for quick hook-up with low backhoe than traditional wrap-up methods. No pins or clips to lose.

TrackPro Uses an Offset Swiveling Plate
 "Offset" design toward the front of the trailer to help the hitch to keep control system steady and control trailer sway.

Product Knowledge

Flat Towing

Baseplate
A baseplate is a bracket installed to the front of a vehicle to connect a tow bar.
Find your perfect fit at blueox.com

Tow Bar
Creates a secure connection allowing vehicle to be towed without a trailer.
BX7421

Tow Brake
Applies the brakes of the towed vehicle based on braking input from the towing vehicle.
BXR3022

Protective Equipment
Protects your towed vehicle from damage by road debris or rocks.
BX8870

Drop Receiver
Lowers the hitch connection for level towing.

Wiring Kit
Lowers the lights on your towed vehicle while towing.

Accessory Kit
Accessories needed to secure and store your tow bar.

Pinnacle Of Protection
Industry-leading premium textured powder coat over e-coat from our TTX paint facility, shields against rust and corrosion.

WD Hitches

SwayPro & TrackPro

***SwayPro Shown**

Smooth, Stable Ride
Weight is distributed evenly across axles to minimize trailer bounce and "porpoising."

Integrated Positive Castor
Designed with integrated positive castor working in tandem with the loaded spring bars pushing the trailer to center.

Spring Steel Bars
Flex and bow augmenting the suspensions of the tow vehicle and trailer. Can be swapped out with changing tongue weights.

Pinnacle Of Protection
Industry-leading "premium textured powder coat over e-coat" from our TTX paint facility, shields against rust.

SwayPro Uses Rotating Latches
Wrap around latch design allows for quick hook up with less hassle than traditional snap-up methods. No pins or clips to lose.

TrackPro Uses an Offset Backing Plate
"Offset" design toward the front of the trailer to help the hitch's sway control system pivot and control trailer sway.

5th Wheel

Connection
360° nesting of the kingpin. No need for extra kingpin adapters. Reduces the risk of false hookups & Trailer drops.

Dual Articulating Head
Hitch head articulates from front to back, side to side, allowing the trailer to move with the truck over uneven ground.

Adjustable Height
Height adjustments 17", 18", and 19" (3" height adjustments). The head height adjusts with 4 bolts.

Lightweight Design
Two sturdy pieces. Remove the hitch easily and reclaim your truck bed.
BXR2100: 125 lbs. Base: 74 lbs. Head 51 lbs.
BXR2410: 101 lbs. Base: 50 lbs. Head 51 lbs.

Pinnacle Of Protection
E-Coat immersion ensures 100% coverage of complex parts, as well as uniform thickness. This in turn ensures superior corrosion protection. We add a Powder Coat on top of the E-Coat to make our products UV stable, lending an increased protection to products that face exposure to the elements. 3 year limited warranty.
