

SwayPro™

Weight Distributing Hitch

Caster in the hitch head constantly centers the trailer.

Spring bars augment the suspensions of the tow vehicle & trailer.

Rotating latches with clamp-on brackets for noise free sway prevention.

Standard Tongue Weights Available: 350, 550, 750, 1000, 1500, 2000 (2.5" Shank).

All equipped with 2-5/16" ball.

Spring Bar Identification

Tongue Weight Indicated by dots on the bar.

BXW4015
200-350lb

BXW4005
351-550lb

BXW4006
551-750lb

BXW4007
751-1000lb

BXW4008
1001-1500lb

BXW4014
1501-2000lb

Standard 7-Hole SwayPro Hitch Kits. 9-Hole Shank Kits Available.

Please ensure hitch weight/tongue weight falls within the spring bar capacity range; doing so will lead to the highest level of product performance. If unknown, please use a calculation of 12%-15% of trailer GVWR to estimate.
